| **Workplace:** | Communication, teamwork, problem-solving, attention to detail |

## TRAINING & INTERNSHIP EXPERIENCE

### Application Development Trainee (Training Program) — Revature
**Sep 2025 – Jan 2026**

- Completed structured application development training involving team-based projects and Agile workflows.
- Contributed to BudgetWise, a personal finance application, working on transaction and category features, reporting and CSV imports.
- Worked on backend category functionality, input validation and user-specific access controls.

### UI/UX Design Intern — Fluxatic Global
**Jul 2024 – Sep 2024**

- Prepared wireframes, design boards and interactive prototypes using Figma and Miro.
- Organized design concepts and presented project decisions to stakeholders.

### Web Developer Intern — ByteUprise
**Apr 2024 – Jun 2024**

- Developed responsive web pages using HTML, CSS and JavaScript in collaborative project work.

## PROJECTS

### BudgetWise — Personal Finance Application

- Contributed to transaction and category features, reporting, user authentication and CSV-import functionality.
- Worked on backend validation and user-specific access controls using Python and Flask.

### Bus Reservation System

- Developed a desktop application for managing bus reservations and seat bookings using Visual Studio.

### Mashup — Music Collaboration App

- Created wireframes and interactive prototypes; the team received first place at TechStatic ’24.

## EDUCATION

### Bachelor of Information Technology— Honours in Data Science
**Oct 2021 – Jul 2025**

Padre Conceicao College of Engineering, Goa

## CERTIFICATIONS

- Management Information Systems — NPTEL
- Python Programming Workshop (Basic to Advanced Concepts)
- AI Tools & ChatGPT Workshop — be10X (2026)

## LANGUAGES

English, Hindi, Urdu
